## WHAT IS TICKET TO WORK?

Ticket to Work is an employment support program for individuals with disabilities who want to work and earn enough to become self-supporting.

THE TICKET PROGRAM is sponsored by the Social Security Administration. It is a voluntary program, free of charge, and there is no penalty or consequence if you choose not to participate. However, if you want to work and earn a better living than you presently have, then using your ticket helps increase your chances of achieving your employment goals. You are using your ticket when you sign up with an employment network (including State Vocational Rehabilitation Services) to take advantage of the essential services and supports you may need in finding, obtaining, and maintaining a job.

## WHAT ARE SERVICES FROM AN EMPLOYMENT NETWORK (EN)?

An Employment Network (EN) is an entity or group of entities, forming a contract with the Social Security Administration agreeing to assist SSA beneficiaries (ages 18-64 years), with employment, Vocational Rehabilitation (VR) and/or other disability support services under the Ticket to Work Program.

To receive services from an Employment Network, a SSA beneficiary, by choice, assigns the Ticket to a selected EN. If the EN accepts the Ticket, services can be coordinated and delivered to help the individual locate and maintain employment. Note: if you receive a disability related Social Security benefit, you probably qualify to take part in the Ticket program. You do not need to have a paper Ticket to take to the EN. The EN can check to see how you qualify.
